

U-Torm

The Cosmic Truss U-Torm is a flexible solution to hanging drop positions for lighting, projection and other equipment in a completely modular solution.

Comprised of lightweight modules and sections, the U-Torm allows endless configurations for single fixtures, double hangs or ladders of multiple fixtures, which can also be expanded to create a wall of hanging positions.

The U-Torm is available in two standard sizes, but can be built upon and customized using the standard Cosmic Truss F31 range of 2" pipes, T-sections, spigots, and corner adapters. These all fit seamlessly into the U-Torm allowing you to create hanging positions or structures in an unlimited variety of combinations.

U-Torm

The U-Torm system has been designed for quick deployment and is fast to set up and take down in any environment.

For either size, the lightweight aluminum construction design is reinforced to ensure stability.

Handy safety point attachments are fitted on each side of the U-Torm to cater for multiple fixture types.
