

# GLP DRX Sleeve Information

GLP DRX Sleeve for Wild Bar 16 (#56802)  
05/14/2025

## GLP DRX Sleeve general information:

*NOTE: This DRX Sleeve is a Split Sleeve where 2 sleeves are needed to catch one fixture.*

By ordering the product #56802 you will get one single DRX Sleeves.  
For one fixture you need to order one pair, means 2 DRX sleeves.

Two of these GLP DRX Sleeves are delivered together with the GLP product and ensures optimal protection during transport thanks to the optimal covering.

The DRX Sleeve can continue to be used by the customer as a permanent transport solution after delivery. The size of the DRX Sleeve is optimized for use in a standard flight case.

When transporting the GLP product in the DRX Sleeve, the tilt lock must be opened.
